PETITION UNDER 37 CFR 1.181 TO RESET PERIOD FOR REPLY

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is a Petition under 37 CFR 1.181 and MPEP 710.06. Undersigned counsel never received the Official Letter until the Applicant, in Bogota, Colombia, notified undersigned counsel that a Notice of Abandonment had been mailed. The facts are as follows:

1. The instant application was filed *pro se*, and undersigned counsel was engaged to take over the prosecution of this application. On February 23, 2006, counsel submitted a new Power of Attorney and Change of Correspondence Address, see Exhibit A. On the same day, counsel made a status request, see Exhibit B.
2. Four months later, notwithstanding receipt of the Power of Attorney and Change of Correspondence Address, the Office mailed the first Official Letter to the inventor in Bogota, Colombia, see Exhibit C. For whatever reason, it is counsel's understanding the inventor never received this Official Letter, hence nothing was done.
3. The Office then, on January 24, 2007, mailed a Notice of Abandonment to the inventor in Bogota, Colombia, see Exhibit D, which the inventor received and notified undersigned counsel.
4. Checking on PAIR indicates that Power of Attorney and Correspondence Address still

has not been changed in this application, see Exhibit E.

In light of the above-mentioned facts clearly indicating that the Office failed to record the Change of Correspondence Address and Power of Attorney and mail the Official Letter to the correct address, it is requested that the Official Letter be re-mailed and the time reset so that counsel has adequate time to obtain instructions from Bogota, Colombia, and make timely response.

It is submitted that no petition fee should be paid under the above circumstances, however, should some fee prove necessary, authorization is herewith given to charge undersigned counsel's deposit account, 06-1358.

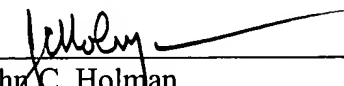

CONCLUSION

In view of the above facts and attached exhibits, it is requested that the Official Letter be re-mailed and the due date for response be restarted.

Respectfully submitted,

JACOBSON HOLMAN, PLLC

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1 This application contains claims directed to the following patentably distinct species:

- a. The simple novolute engagement of Figures 2-3.
- b. The double novolute engagement of Figures 4-7.

The species are independent or distinct because each disclosed species has a separate subject of inventive effort and therefore is considered to be diverging subject matter. The disclosed species may be classified together, but examining the diverging subject matter of each disclosed species is considered a serious burden on the examiner.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 3682

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
